SECURE ACCESS
& PRESERVATION

Consolidate, Manage and Protect your organization's high value, mission critical data with a content management and secure data storage solution from Real Vision and Nexsan by Imation. Real Vision Imaging's (RVI) content management with Nexsan's Assureon secure archive products provide you a full spectrum solution that covers your data lifecycle needs.

RVI offers flexible, expandable and affordable content management solutions. RVI transforms stacks of paper, PC documents, emails, faxes, and photos into organized files for secured one-click 24x7 access from your office, over the internet or even from your mobile devices. Effectively you're bringing digital sanity to your information overload!

Nexsan compliments this digitization by offering storage solutions that deliver easy, fast and secure access to your files throughout its lifecycle.

- A secure repository for your high-value electronic documents.
- Highly reliable with automatic self-healing integrity audit
- Secure archive solutions that meet the strictest regulatory and compliance requirements for high value documents.

The Nexsan portfolio is architected to scale with your growth so start as small as you'd like and grow as far as you can go!

Together, RVI and Nexsan deliver a powerful experience combining both content management and secure long-term preservation of your data! Access your files with the peace of mind knowing that they're exactly how you left them...

HOW NEXSAN ASSUREON™ COMPLIMENTS RVI

The Nexsan Assureon™ archive storage system compliments document management as it delivers storage optimization, regulatory and corporate compliance, and long-term archiving of unstructured data. Built on unparalleled simplicity of use, these storage systems scale with organizational growth. Manage and consolidate the growth of your data via RVI, protect and preserve it for eternity with Assureon.

Assureon archive storage systems are very popular in the financial and healthcare industries; federal, state and local government organizations; as well as call centers, video surveillance and organizations with multiple remote offices. The diagram below illustrates some of the areas in these markets Assureon delivers on their requirements.

BENEFITS

- Document Imaging
- Report / Print Output
- Includes Capture System
- Multiple Viewer Options
- PDF Document Delivery
- Advanced Workflow
- 24x7 Internet Support
- Mobile APP (Apple Devices)
- Expandable (to 65 Systems)
- No User Based Charges
- No Add-On Modules
- 15% Annual Support

INDUSTRIES

- Banking
- Construction
- Distribution
- Energy
- Gaming
- Government
- Insurance
- Manufacturing
- Medical
- Service
- Transportation
- Travel & Hospitality

UNSTRUCTURED APPLICATIONS & FILE DATA

FINANCIAL

Applications for Corporate Governance best practice or SEC 17a4, Check 21, PCI, SOX, etc.

HEALTHCARE

Healthcare Applications for Medical Imaging, Cardiology, Patient Records, HIPAA

ALL VERTICALS

Application Data for corporate governance best practices, SOX, etc.

There is some data that is too important to lose, too private to be seen and too critical to be tampered with. Solve all these problems with one Assureon!

ASSUREON FEATURES

- Dual hash File Fingerprint at source
- Files protected from day one
- Self-Healing Integrity Audit
- Replication ensures file integrity
- Bi-directional replication
- Retention policies prevent accidental or intentional deletion
- Independent Time Stamp for accuracy; prevents time tampering

LIABILITY & RISK MITIGATION

- Encryption of Files at Rest
- Encryption over the wire
- Secure multi-tenancy
- Access Audit Log
- File authenticity ensured for litigation or compliance
- Self-Managing

STORAGE OPTIMIZATION

- Free up primary storage capacity and budgets by shortcutting data
- Automatic Read Failover
- Reduce Backup Window
- High Speed Assureon:
 - Physical or Virtual shortcuts
 - Assureon Clustering: A/P or A/A/A/... w/ 40Gbps InfiniBand

ABOUT RVI

RVI is a feature-rich document management solution built for application integration. It enables you to digitize and index your documents making them available for later retrieval, including secured access over the web or even from a mobile device. RVI has NO user based fees and NO add-on modules. The RVI Complete base system is equipped with everything needed to capture, store, manage and deliver scanned paper documents, imported PC Files (word processing, spreadsheets, etc.), digital photos, audio-visual content, emails and even printed output (reports, statements, invoices and more).

ABOUT NEXSAN BY IMATION

Imation is a global data storage and information security company. Imation's Nexsan storage portfolio features solid-state optimized unified hybrid storage systems, secure automated archive solutions and high-density enterprise storage arrays. Nexsan solutions are ideal for mission-critical IT applications such as virtualization, cloud, databases, and collaboration; plus offer energy efficient, and high-density storage for backup and archiving. There are more than 11,000 customers of Nexsan solutions worldwide with more than 37,000 systems deployed. Nexsan systems are delivered through a worldwide network of cloud service providers, value-added resellers and solutions integrators. For more information, visit www.imation.com/nexsan.
